The Honorable Henry S. Reuss
Chairman, Conservation and Natural
Resources Subcommittee
Committee on Government Operations
House of Representatives
Washington, D. C. 20515

Dear Mr. Chairman:

Henry

Thank you for your letter of 6 August 1970 regarding an updated survey by your Subcommittee of the status of air pollution abatement at Federal installations.

As was the case last year, Agency occupied Federal installations on which you have requested information will be included in General Services Administration's report to your Subcommittee. Accordingly, and in keeping with the understanding reached with Miss Josephine Schelber of your staff, we will not duplicate GSA's reporting.

If we can be of any further assistance please let us know.

Sincerely,

/s/

Richard Helms
Director

This letter to Chairman Reuss, Conservation & Natural Resources Subcommittee, House Committee on Government Operations, confirms an understanding reached with a Subcommittee staff member that there is no need for an Agency report on air pollution since the information requested will be furnished the Subcommittee by GSA.

Per our conversation of
19 August I would hope that an
Agency response along the lines
of the attached draft will be
adequate to satisfy this year's
reporting requirement on air
pollution abatement.

Dear Mr. Chairman:

Thank you for your letter of August 6, 1970, concerning air pollution
abatement at Federal installations.

All Agency-occupied Federal installations, on which you have requested
information, are maintained by and will be reported by the General Services
Administration.

If there is further information, which you would like relating to this
matter, please let me know.

Sincerely,

John M. Maury
Legislative Counsel

Please let us know if there are any problems in replying to the attached request. As you may recall, we received a similar request from the Reuss Subcommittee last year and eventually our response was based on an agreement with a Subcommittee staff member that GSA's report would include all Agency installations. The present request seems broader in scope, however, as it applies to a number of recently created air quality control regions.

If you want to dig deeper into this before bucking it on to Logistics, you're welcome to look over our file on how this was handled last year.

Our report back date is no later than 14 Sept. It's been SOP for us to make interim replies, but we'll hold off doing this until you've had a chance to review in case you'd like us to obtain further information from the Subcommittee first.

1. Since this Agency does not have the responsibility for the maintenance of any overt Federal installation, I propose that we advise the Subcommittee that that information will be provided directly by GSA in its overall report to them.
